2023-2024

 **About Sudexpress**

Sudexpress scale model trains emerges in 2008 as an extension of NORBRASS in the area of railway modeling, in plastic. Its main goal is the production of high quality models, available to a wider market. The manufacture of these models uses the latest technologies in drawing and injection molding processes, in accordance with the philosophy of precision and quality characteristic of NORBRASS. Its name derives from the famous train Sud-Express which connects the french capital Paris to Lisbon through Madrid, since 1887.

To meet the desires of the wide variety of railway modelers, Sudexpress scale model trains presents three lines of products - Standard, Premium line and Norbrass line. As the name suggests, Standard line stands for assembled and ready to roll models with great detail and at an affordable price. Premium Line offers standard models but with extra features such as sound decoder, servo motors and other extras from factory. Norbrass line are hybrid limited edition models made in brass and plastic, combining the best of both worlds.

Sudexpress scale model trains is a trademark of Avaliare Engenharia Lda.

 **Über Sudexpress**

Sudexpress Scale Model Trains entsteht 2008 als Erweiterung von NORBRASS Messing Modelle im Bereich Eisenbahnmodellbau in Kunststoff. Ihr Hauptziel ist die Herstellung hochwertiger Modelle, die einem breiteren Markt zur Verfügung stehen. Bei der Herstellung dieser Modelle werden modernste Technologien wie 3D CAD und Spritzgussverfahren eingesetzt, entsprechend der Präzisions- und Qualitätsphilosophie von NORBRASS.

Sein Name leitet sich von dem berühmten Zug Sud-Express ab, der seit 1887 die französische Hauptstadt Paris über Madrid mit Lissabon verbindet.

Um den Wünschen der unterschiedlichsten Eisenbahnmodellbauer gerecht zu werden, präsentiert Sudexpress Scale Model Trains drei Produktlinien - Standard, Premium Line und Norbrass Line. Wie der Name schon vermuten lässt, steht die Standard-Linie für montierte und fahrfertige Modelle mit viel Liebe zum Detail und zu einem erschwinglichen Preis. Premium Line bietet Standardmodelle, jedoch mit zusätzlichen Funktionen wie Sounddecoder, Servomotoren und anderen Extras ab Werk. Die Norbrass-Linie sind Hybridmodelle in limitierter Auflage aus Messing und Kunststoff, die das Beste aus beiden Welten vereinen.

Sudexpress Scale Model Trains ist eine Marke von Avaliare Engenharia Lda.

 **Sobre a Sudexpress**

A Sudexpress scale model trains surgiu em 2008 como uma extensão da NORBRASS no segmento de modelos ferroviários em plástico e tem como objetivo principal a produção de modelos de grande qualidade, acessíveis a um mercado mais alargado. Na execução desses modelos são utilizadas as últimas tecnologias de desenho e injeção, seguindo uma filosofia de rigor e qualidade que caracteriza a NORBRASS.

O seu nome vem do famoso comboio Sud-Expresso que ligou a capital francesa Paris a Madrid e Lisboa, a partir de 1887.

Para ir de encontro aos desejos de uma gama ampla de modelistas ferroviários a Sudexpress scale model trains apresenta três linhas de produtos - Standard, Premium line e Norbrass line. Tal como nome indica, a linha Standard apresenta modelos já montados e prontos a rolar com um bom grau de detalhagem e a um preço acessível. A Premium Line propõem modelos standard mas com funcionalidades extra tal como decoder de som, servo-motores e luzes adicionais de fábrica. Na Norbrass Line representa modelos de alta gama híbridos, combinando latão com plástico em edições exclusivas e muito limitadas.

A Sudexpress scale model trains é uma marca registada de Avaliare Engenharia Lda.

Official Licensed Products

Sudexpress scale model trains is proud to be Stadler's official partner and thus having the license to manufacture its miniature scale locomotives.

This partnership started back in 2011 with Vossloh Rail Valencia (Stadler Rail Valencia since 2015) and the Euro 4000 diesel locomotive. Sudexpress has since then brought to the market numerous exemplars of that model in H0 and N scale. This collaboration allowed us to gain experience and valuable know how in the manufacturing process, which has contributed to deliver high quality and detailed models.

Now is time to carry on with the Stadler's new EURO line up of modern locomotives in different versions and offer them to our customers throughout the time, in various scales.

Follow us in this journey as we keep up with the real-life Stadler locomotive roll out and developments.

A Sudexpress scale model trains congratula-se por ser o parceiro oficial da Stadler e, portanto, de possuir a licença para reproduzir as suas locomotivas em miniatura.

Esta parceria iniciou-se em 2011 com a Vossloh Rail Valencia (Stadler Rail Valencia desde 2015) e a locomotiva diesel Euro 4000. Desde então, a Sudexpress lançou no mercado vários exemplares deste modelo na escala H0 e N. Esta colaboração permitiu-nos ganhar experiência e um valioso know-how no que toca à produção de modelos detalhados e de alta qualidade.

O nosso objectivo é continuar a fortalecer esta parceria e lançar no mercado a nova família de locomotivas modernas EURO da Stadler, nas várias escalas.

Siga-nos nesta jornada enquanto acompanhamos o lançamento e os desenvolvimentos das locomotivas Stadler na vida real.

Sudexpress scale model trains ist stolz darauf, Stadlers offizieller Partner zu sein und damit die Lizenz zur Herstellung ihrer Loks in Miniatur-Modellen zu haben.

Diese Partnerschaft begann bereits 2011 mit Vossloh Rail Valencia (Stadler Rail Valencia seit 2015) und der Diesellok Euro 4000. Sudexpress hat seitdem zahlreiche Exemplare dieses Modells im H0- und N-Maßstab auf den Markt gebracht. Diese Zusammenarbeit ermöglichte es uns, Erfahrungen und wertvolles Know-how im Herstellungsprozess zu sammeln, was dazu beigetragen hat, qualitativ hochwertige und detaillierte Modelle zu liefern.

Jetzt ist die Zeit, die neue EURO-Reihe moderner Loks von Stadler in verschiedenen Ausführungen fortzusetzen und sie im Laufe der Zeit in verschiedenen Maßstäben anzubieten.

Folgen Sie uns auf dieser Reise, während wir mit der Einführung und Entwicklung der Stadler-Loks Schritt halten.

EURO9000

The future of cross-border heavy rail freight in Europe... soon also in H0 gauge!

The Euro9000 platform is a new hybrid multi-system heavy Co'Co' locomotive and the natural evolution of Stadler's successful EuroDual and Euro4000 locomotive families.

The Euro9000 platform can be configured for different countries and corridors. There is also the option of equipping the locomotive with diesel engines, battery packs or a combination of these at two multifunctional assembly stations.

Parallel to the prototype, Sudexpress is also working on the detailed implementation of this new Stadler "Super Locomotive". As with our EuroDual and Euro6000 models, these will also boast spectacular detailing and optimal operational characteristics.

We will be communicating further information about the new Euro9000 models shortly.

Die Zukunft des grenzüberschreitenden Schwersen Güterverkehrs in Europa... bald auch in Spur H0!

Die Euro9000-Plattform ist eine neue Hybrid-Multisystem schwere Co'Co' Lok und die natürliche Weiterentwicklung der erfolgreichen EuroDual- und Euro4000-Lokomotivfamilie von Stadler.

Die Euro9000-Plattform kann für verschiedene Länder und Korridore konfiguriert werden. Dazu besteht die Möglichkeit, die Lokomotive an zwei multifunktionalen Montagestationen mit Dieselmotoren, Akkupacks oder einer Kombination aus diesen auszurüsten.

Parallel zum Vorbild wird auch bei Sudexpress an der detailgetreuen Umsetzung dieser neuen Stadler "Super-Lok" gearbeitet. Wie bei unseren EuroDual und Euro6000 Modellen, werden auch diese durch spektakulärere Detaillierung und Betriebseigenschaften überzeugen.

Weitere Informationen zu den neuen Euro9000-Modellen werden wir in Kürze kommunizieren.

Smart GigaWood 2

Innovative logistics solutions for the rails... coming soon also in HO!

Innofreight presents several new superstructures for the Sggmrrs 90' wagons, that will be providing logistical solutions across Europe.

Parallel to the prototypes, Sudexpress is also working on the detailed implementations of these new modular superstructures. As with our current Sggmrrs 90' GigaWood models, these will also boast more spectacular detailing and optimal operational characteristics.

We will be communicating further information about the new Sggmrrs 90' models shortly.

Smart GigaWood Round and Sawn

CemTainer

Innovative Logistikkösungen für die Schiene... demnächst auch in H0!

Innofreight präsentiert mehrere neue Aufbauten für die Sggmrrs 90'-Wagen, die Logistikkösungen in ganz Europa bieten werden.

Parallel zu den Prototypen arbeitet Sudexpress auch an der detaillierten Umsetzung dieser neuen modularen Aufbauten. Wie bei unseren aktuellen Sggmrrs 90' GigaWood-Modellen werden auch diese spektakulärere Details und optimale Betriebseigenschaften aufweisen.

Weitere Informationen zu den neuen Sggmrrs 90'-Modellen werden wir in Kürze kommunizieren.

Liability:

Despite of our best effort and the best possible care, AVALIARE Engenharia Lda is not liable and gives no warranty for the accuracy, up-to-dateness or completeness of the contents and the information given in this catalogue.

AVALIARE Engenharia Lda reserves the right to update the contents of the catalogue as well as the technical specifications of the contained products at any time. Many models shown on the illustrations are photomontages and 3D CAD drawings. The final and delivered version of the models may therefore differ from the depicted illustrations. Electrical and mechanical data and dimensions may vary. Products from the series production may differ in detail from the depicted models. Availability and delivery options of the illustrated products are subject to change.

Haftung:

Trotz größter Bemühungen und größtmöglicher Sorgfalt übernimmt die AVALIARE Engenharia Lda keine Haftung und Gewähr für die Richtigkeit, Aktualität und Vollständigkeit der in diesem Katalog enthaltenen Inhalte und Informationen.

AVALIARE Engenharia Lda behält sich das Recht vor, den Inhalt des Katalogs sowie die technischen Spezifikationen der enthaltenen Produkte jederzeit zu aktualisieren. Viele der auf den Abbildungen gezeigten Modelle sind Fotomontagen und 3D-CAD-Zeichnungen. Die endgültige und ausgelieferte Version der Modelle kann daher von den abgebildeten Abbildungen abweichen. Elektrische und mechanische Daten und Abmessungen können abweichen. Produkte aus der Serienfertigung können im Detail von den abgebildeten Modellen abweichen. Verfügbarkeit und Liefermöglichkeiten der abgebildeten Produkte sind freibleibend.

Responsabilidade:

Apesar dos nossos melhores esforços e do maior cuidado possível, a AVALIARE Engenharia Lda não se responsabiliza e não garante a exactidão, actualização ou veracidade dos conteúdos e da informação aqui apresentada neste catálogo.

A AVALIARE Engenharia Lda reserva o direito de actualizar o conteúdo do catálogo, bem como as especificações técnicas dos produtos nele contidos a qualquer momento. Muitas das imagens presentes nas ilustrações são fotomontagens e desenhos CAD 3D. A versão final e distribuída dos modelos pode, portanto, ser diferente das ilustrações apresentadas. Dados, especificações e dimensões podem variar e diferir do indicado neste presente catálogo. A disponibilidade e a distribuição dos produtos ilustrados neste catálogo está sujeita a alterações.
